

## Hakone Tozan Line Suspension Information

Due to the effects of Typhoon 19 (Hagibis), the Hakone Tozan Line from Hakone-Yumoto to Gora has been suspended since October 12, 2019. Currently, rail replacement services are operating in the suspended section.

Passengers wishing to travel to the area are advised to purchase tickets according to the following information.

- ① Passengers traveling to locations beyond Hakone-Yumoto, please purchase tickets to your final destination. It may be cheaper to purchase the tickets from your current location than buying them at Hakone-Yumoto Station.
- ② IC cards (such as PASMO, Suica, etc.) cannot be used on the rail replacement buses. Passengers going to Hakone-Yumoto Station by IC card are advised to purchase tickets at the station before going to the bus stop.

Please purchase a ticket to your final destination.

We apologize for any inconvenience and appreciate your understanding. For more details, please ask the station staff.
